

## EXi XPansion Sounds

This set of sounds includes 128 new EXi Programs and 96 new Combinations.

The Programs include classic analog bass, lead, pad, and synth sounds from the AL-1; modeled electric pianos, innovative plucked timbres, and ethereal pads from the STR-1; new expertly-created organ voicings for the CX-3; and more.

The Combinations use these new Programs in conjunction with the factory preload sounds (including all INT banks and USER-E and F) to create evocative layers, useful splits, driving rhythms, and lush, evolving soundscapes.

To ensure compatibility, the optional MS-20EX, PolysixEX, and MOD-7 are not used.

### Some Combinations require EXs1

Some of the included Combinations use Programs based on Multisamples from EXs1 — so if EXs1 is not loaded, they will not sound properly. All such Combinations include “EXs1” in their names.

## Transferring the sounds from your computer

After downloading the sounds:

### 1. Un-zip the downloaded file.

The zip archive contains the EXI\_XP.PCG file and these instructions.

### 2. Save the .PCG file to a USB hard drive, flash media, or an ISO9660 CD-R/RW disk.

### 3. Connect the USB storage device to the OASYS, or insert the CD-R/RW disk into the OASYS drive.

### 4. If you're using a USB storage device, go to the DISK mode Media Information page, and use the Scan Device menu command.

### 5. Go to the Disk Utility page, and use the Copy menu command to copy the .PCG file to the OASYS internal hard disk.

## Loading the sounds into internal memory

The PCG file contains a bank of Programs and a companion bank of Combinations, both of which by default will load into USER-G.

### Loading Programs and Combis into USER-G

To load the sounds:

#### 1. Go to the Disk Load page.

#### 2. Select the EXI\_XP.PCG file.

#### 3. Press the Load button.

A dialog box appears.

#### 4. Leave the .PCG Contents menu set to All.

#### 5. Press OK.

The sounds will be loaded into USER-G.

**Note:** the Combinations require that the factory Programs be loaded into all of the INT banks, as well as USER-E and F.

### Loading Programs and Combis into USER-A~D

#### 1. Go to the Disk Load page.

#### 2. Select the EXI\_XP.PCG file.

#### 3. Press the Load button.

A dialog box appears.

#### 4. Set the .PCG Contents parameter to USER-G.

To the right of this parameter, the To parameter will appear.

#### 5. In the To parameter, select the bank to overwrite.

Select any of the banks USER-A through USER-D.

**Note:** the Combinations use some of the sounds from INT-F, USER-E, and USER-F, so don't overwrite these banks.

#### 6. Press OK.

The Programs and Combinations will be loaded into the selected bank.

# Voice Name List

## Programs USER-G

Number	Program Name
G000	Vintage STR-1 E.Piano 1
G001	Vintage STR-1 E.Piano 2
G002	Glass Arrow Piano
G003	Round Wound Clav
G004	Pulse Clav
G005	STR-1 Modeling Organ
G006	Organ Comp
G007	NIACIN Organ
G008	Full On
G009	Organ Bass
G010	Rhythm Comp
G011	Solo & Comp
G012	Solo Organ
G013	NIACIN Walk Bass
G014	NIACIN Wah (Pitchbend)
G015	String Bell
