Executive Producer/Editor: Grzegorz Marciak
Revision Date – 01-02-2012

Sounds of Planet Company thanks for purchasing the package of 32 Combinations called "NEO- ENDORPHIN" designed for Korg Kronos workstations. Prepared package is a perfect complementation of factory installed Combi sets. Wide range of styles : Dance, Techno, Trance, Pop, Ambient, Rock will ensure many hours of professional work as well as really great fun with the instrument.

"NEO- ENDORPHIN" uses all 4 KARMA modules and all 8 scenes available in the machine. We have enhanced the factory setup by new GEs to expand a potential of Korg Kronos workstation even more.

In order to perform a correct installation of "NEO- ENDORPHIN" package, follow the steps as described below:

1. Make a copy of all own files in the instrument performing SAVE ALL function
- see manual KRONOS_Quick_Starts_E2 page 25 or KRONOS_Param_Guide_E2 page 829.
2. Compressed file called " NEO- ENDORPHIN by SOP" .zip – shall be unzipped.

After unzipping, the file contains the folder with the following files:

- 1 neoendoprhin.KGE,
- 2 neoendoprhin.PCG,
- 3 instruction manual in form of PDF file.

3. Copy the files neoendoprhin.KGE and neoendoprhin. PCG to portable flash USB drive or portable USB disc.
4. Connect the USB device to the instrument.
5. ---Enter the modes as follows: Disk → Drive Select → Select USB → lower tab → highlight file for installation neoendoprhin. PCG and press red LOAD button; then additionally tick the box neoendoprhin.KGE in dialog window (file contains KARMA GEs package necessary for correct operation of "NEO- ENDORPHIN" set) and press OK.

As default, new combis are installed in bank U-A , but you can change that performing the following steps:

----Enter the modes as follows : Disc → Drive Select → select USB → lower tab LOAD → highlight file for installation neoendoprhin. PCG → press blue button OPEN → Combinations will be highlighted → press blue button OPEN → Bank U-A will be highlighted → press red button LOAD → select the target bank in the dialog window.

In such case you still have to install the file neoendoprhin.KGE

---Enter the modes as follows : Disk → Drive Select → select USB → lower tab LOAD → highlight file for installation neoendoprhin.KGE → and press red button LOAD → now just press OK in the dialog window.

"NEO- ENDORPHIN" includes 32 new combis and 96 empty combi programs.

Sounds of Planet Company – shall bear no liability for any damages resulted in connection with incorrect use of program and/or in effect of incorrect installation of program.

On the following pages of instruction manual you will find the description of basic settings of respective combi programs.

Use the controllers : Joystick, Knobs, Vector JS, Switch 1, Switch 2, Ribbon, Damper to influence the sound of selected Combi in the real time.

Operation zones of individual Karma modules – as well as keyboard division are presented in graphic way.
