# Symphonic Brass & Vocals Suite

## Brass & Vocals Suite Kronos Expansion

Brass & Vocals Suite is an outstanding collection of lead Saxes Suite , lead trumpets , trombones , cornet , bass clarinet , flute and Brass ensembles of Horns groups for Pop/Funk/Big Band up to Symphonic orchestra use , plus lead vocals with sopranos tenors , scatting vocals and all male and female chorus orchestral ensembles for any kind of chorus setup.

If combined with Strings Suite EXs the resultant is a complete symphonic orchestra and for that reason 5 extra Combis have been created for common use with Strings Suite EXs Library

**Included in Brass & Vocals EXs :** 2 Tenor/3 Alto/2 Baritone and Soprano Lead Saxes , plus Lead 3 Trombones/ 2 Trumpets/cornet / flute/ Bass Clarinet /Tuba /Fr.Horns featured with their articulations in Combination mode , plus solo 2 male tenors / 2 female sopranos / 10 different velocity controlled scatting voice phrases , plus 3 Female/2 male symphonic ensembles. Also 2 Horns/2 Trombones/2 Trumpets/saxes ensembles are included for Big Orchestra's combinations

**Solo Brass Features** (applied at COMBI mode)

\* Velocity layers \* Precise looping and tuning \* Release \* Glissando Up & falls \* Slides \* Rips\* Growls \* mute , via velo/+ -Y/sw. All articulations have been developed in combination mode ( due to HD1 features lack) , where up to 16 sound timbres have been used to create the "real thing" while played in real time always taking care of Kronos HD1 polyphony limitations.

**EXs content :** 3662 Samples - 172 MultiSamples - 128 Programs ( 66 standalone available for sequencer) - 60 Combinations that are the main source of Strings Suite, developed with 62 (blank) program timbres.

**Kronos Requirements :** Any Kronos with latest OS - 950 Mb of free SSD space - 224 Mb of Free Ram space when factory KSC is loaded - Required Program U-BB Banks - COMBI U-B can be loaded at any available COMBI bank - One KSC file for preloading use (Only streaming mode samples are available).

**Purchasing EXs Library :** You must Email us for your Kronos details in order to purchase EXs Library Pack that will be downloaded via a server.

**Notes**

A major part of 128 program sounds are timbre parts of combinations , where is the complete picture of real front seat instruments or ensembles with Nuance controls and articulations.  
 Blank name programs are exclusively used as timbres for combinations they do not work properly as standalone program sounds therefore not recommended to be used for your custom setup or sequencer !  
 You can use any of 66 (non blank) programs for sequencer or due to create your custom combinations.

## Library Tips

**ATTENTION** Do not ever try to install this EXs in a Kronos with different Public ID !!!

WavesArt EXs policy rights can't be transferred to another Kronos , you have to purchase another installer with the new ID !
