21 Programs with names are suitable for standalone use in Sequencer or in your own Combinations.

Program Bank GG is used for 3 EXs libraries due to save banks , so there are many empty positions that are used for the other EXs , like 0-24 that are used for “Brass & Vocals Suite” EXs and mediate positions that are used for “Ethnic Plucked” EXs.

You must let us know if you already own “Brass & Vocals Suite” or “Ethnic Plucked” to send you the proper PCG of Bank U-GG that contains all Program timbres !

Any future update of this Suite will be in PCG format file.

This Library is outside WavesArt's 11 Gb bundle , therefore Kronos owners of full bundle might have to unload some unused factory EXs in order to earn the required 106 Mb Ram space.

For Purchasing contact with us due to send us your public ID and then we'll send you the link to PayPal order !
